PROFILE

A Computer Science Graduate with over four years of teamwork experience and project development. A reliable fellow when it comes to any project development. Possesses a creative instinct to develop new things with clean and modular knowledge. Ready for new challenges to hone my technical skills and bring along positive impacts.

WORK EXPERIENCE

First Private Bank   **2022-2023(Aug-Feb)**

Technical Support

- I assisted to handle technical issues related to bank operations and reported issues to IT head.
- As an assistant analyst, I prepared documentations of issues from banking system and did user acceptance testing when we got new features or updates.
